

Bhaktiwala Bug Bash — New Build Findings

New bugs found while exploring the updated Play Store build (8 Sep 2026)

Participant	Ankush Sharma (Anku)
Platform Tested	Bhaktiwala — Play Store build, 8 Sep 2026
Testing Method	Manual exploratory testing across Home, Temples, Pandits, Daily Spiritual, and new Aradhana tab

#	Bug Title	Severity
1	Home screen deity widget contradicts Daily Spiritual page	Medium
2	Two temple cards render completely empty mid-list	Medium
3	New "Aradhana" tab ignores the App Language setting	Low

BUG REPORT #1 — Home screen deity widget contradicts the Daily Spiritual page

Medium

Date of Observation	8 Sep 2026
Report Type	Bug Report
App Version	[Fill in — check Play Store listing or app Settings/About]
Device Model	[Fill in — your phone's Settings → About Phone]
Android OS Version	[Fill in — your phone's Settings → About Phone]
Severity Level	Medium - Feature impairment

Summary of Issue or Suggestion

Home screen deity widget shows wrong/stale deity, contradicting the Daily Spiritual page

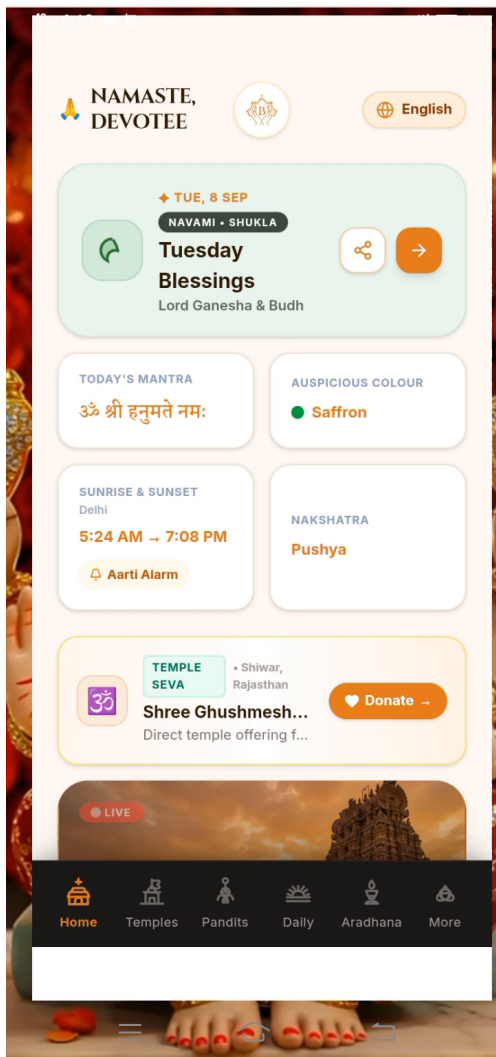

Detailed Description

The Home screen's day widget shows "Tuesday Blessings — Lord Ganesha & Budh." However, the Daily Spiritual tab correctly identifies the same day as governed by Lord Hanuman (matching today's mantra, "Om Shri Hanumate Namah," and standard Tuesday/Mangalvar tradition). This is the same incorrect text ("Lord Ganesha & Budh") that appeared on a previous Thursday visit too — proving the Home widget's deity label is hardcoded and never actually updates per day, while the Daily Spiritual page computes it correctly. The two screens now visibly contradict each other for the same date.

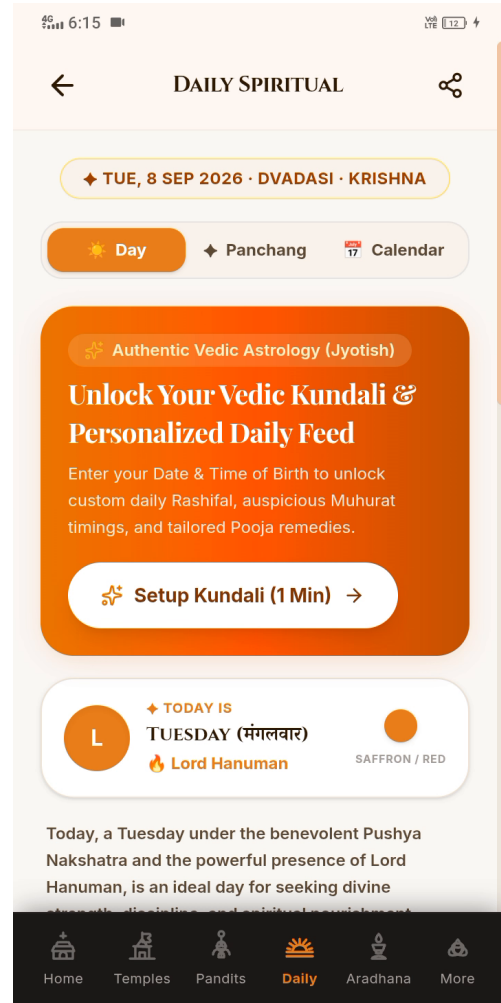

Steps to Reproduce

1. Open the app; note the Home screen "[Day] Blessings" widget and its deity label.
2. Go to the Daily tab (Daily Spiritual).
3. Compare the deity shown there for the same date.

Screenshot Evidence (attach to "Upload Screenshot or Log File")

Home: 'Tuesday Blessings — Lord Ganesha & Budh'

Daily Spiritual: 'Tuesday — Lord Hanuman' (correct)

BUG REPORT #2 — Two temple cards render completely empty mid-list

Medium

Date of Observation 8 Sep 2026

Report Type Bug Report

App Version [Fill in — check Play Store listing or app Settings/About]

Device Model [Fill in — your phone's Settings → About Phone]

Android OS Version [Fill in — your phone's Settings → About Phone]

Severity Level Medium - Feature impairment

Summary of Issue or Suggestion

Two temple cards show no image, name, or location — only a play icon

Detailed Description

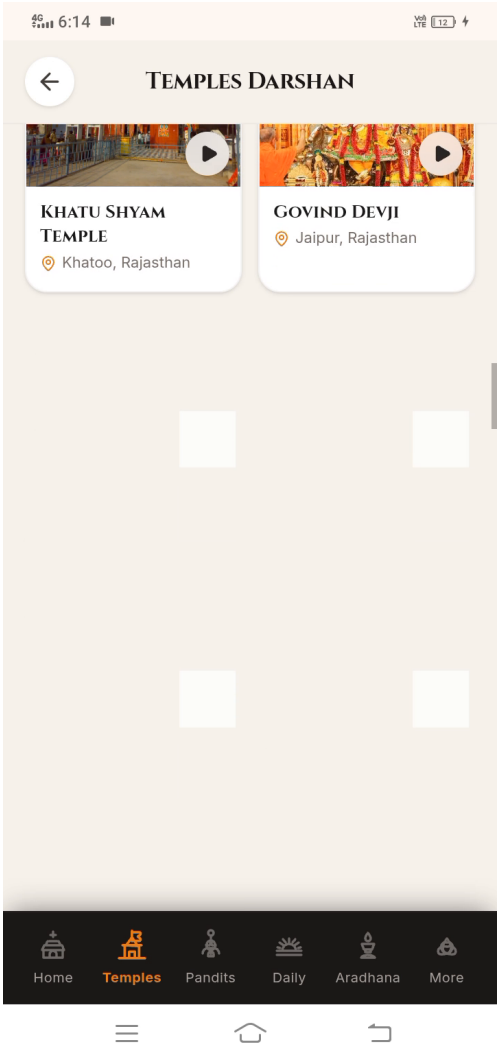

While scrolling the Temples Darshan list, two card slots appear between "Govind Devji" and "Shri Dwarkadhish Mandir" with absolutely no content — no thumbnail, no temple name, no location text, just a lone play button icon floating on an empty card. Scrolling further shows the list resumes normally afterward with real temple cards, so this isn't the end of the list — it's a rendering/data failure for two specific items.

Steps to Reproduce

1. Go to Temples tab.
2. Scroll down past "Khatu Shyam Temple" and "Govind Devji."

3. Observe the next two card slots before "Shri Dwarkadhish Mandir" appears.

Screenshot Evidence (attach to "Upload Screenshot or Log File")

Two temple cards with no image/name/location, only a play icon

BUG REPORT #3 — New "Aradhana" tab ignores the App Language setting		Low
Date of Observation	8 Sep 2026	
Report Type	Bug Report	
App Version	[Fill in — check Play Store listing or app Settings/About]	
Device Model	[Fill in — your phone's Settings → About Phone]	
Android OS Version	[Fill in — your phone's Settings → About Phone]	
Severity Level	Low - Minor inconvenience	

Summary of Issue or Suggestion

Aradhana tab content is always in Hindi, regardless of the App Language setting

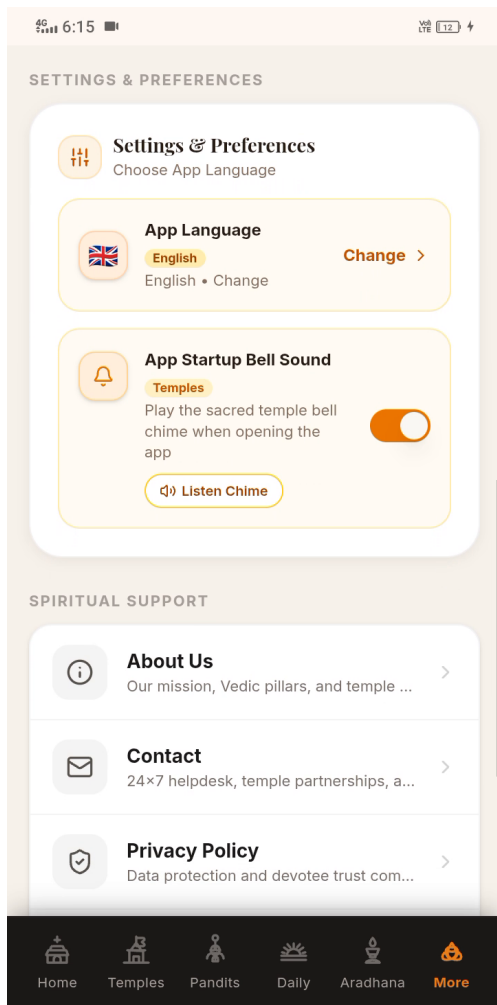

Detailed Description

Under More → Settings & Preferences, "App Language" is set to English, and the rest of the app (Home screen, bottom navigation labels, Daily Spiritual page) correctly displays in English. However, the new "Aradhana" tab (headers, card titles, descriptions, and buttons — e.g. the page title, the "daily merit" section header, and the "see today's program" button) renders entirely in Hindi regardless of this setting.

Steps to Reproduce

1. Go to More → Settings & Preferences and confirm App Language is set to English.
2. Go to the Aradhana tab.
3. Observe that all text is in Hindi despite the English setting.

Screenshot Evidence (attach to "Upload Screenshot or Log File")

Settings: App Language = English

Aradhana tab: entirely in Hindi

End of new-build findings (3 new bugs). See separate PDF/notes for the status of previously reported bugs in this build.
